Profile

I am a Mid-Level Front-End Developer with over 7 years of experience working with CMS Drupal 8/9/10, Twig, JavaScript, Bootstrap, SCSS, and HTML. I create modern, responsive, and efficient interfaces, focusing on aesthetics and functionality. I have also worked with TypeScript, React, Next.js, and Tailwind CSS, building both traditional websites and advanced web applications. My goal is to grow in front-end architecture and deepen my knowledge of React and Next.js to create intuitive and scalable solutions.

Employment

Full-Stack Developer

Feb 2024 - Present
