Profile

I am a Front-End Developer with 8 years of experience and approximately one year of experience as a Full-Stack Developer. I have worked with technologies such as HTML, SCSS, Bootstrap, Tailwind CSS, as well as more advanced tools including React, Next.js, and the Drupal CMS (creating templates and modules using Twig). I also have backend experience, mainly with NestJS and Prisma ORM. Additionally, I have hands-on experience with Vue.js (primarily version 2). Currently, I am focusing on developing my skills in Next.js and React, but I am always eager to learn new technologies and expand my backend expertise.

Employment

Full-Stack developer   May 2021 - Present
WEB DEVELOPMENT OLEKSII KOBA, Gdansk

- Development and maintenance of web applications based on **Next.js, React, React Hooks**, and **TypeScript,** using **Tailwind CSS, React Bootstrap**, and **SCSS**.
- Form data validation using **React Hook Form** and the **Zod** library.
- Implementation of multilingual support in applications using the **next-intl** library.
- Backend development with **NestJS** using either **Mongoose (MongoDB)** or **Prisma ORM** with **PostgreSQL**, depending on the project. Responsibilities included designing data structures, creating DTOs, validation schemas, implementing CRUD operations, and integrating with a PostgreSQL database using Prisma ORM.
- Application deployment on platforms such as **Vercel** and **Heroku,** media file handling with **AWS S3**.
- API testing using **Postman**.

Full-Stack Developer   Feb 2024 - Apr 2025
TERMA Sp. z o.o., Gdansk

- Creation and development of multilingual websites based on **CMS Drupal 8/9/10**.
- Creation and development of web applications using **React 18, React Hooks, TypeScript**, and **Bootstrap 5** – building components, form validation, basic API integration.
- Creation and maintenance of websites based on **Vue.js 2, Vue-Router, Vue-i18n, Bootstrap-vue, SASS**.
- **Customization and development of Drupal themes** (e.g., Bootstrap Barrio, Bootstrap 5, Claro, Olivero, Adminal) and working with the **Twig** templating system and integration with layouts from Figma.
- Using ready-made modules and creating custom ones, their configuration, and mutual connections (e.g., expanding a geolocation map using Views and Google Map Field).
- **Front-end development:** integration of **SCSS, JavaScript, HTML, Bootstrap 4/5, RWD**, working based on layouts from Figma, using Drupal modules like Views, Twig Tweak, Twig Field Value, Paragraphs, Slick, etc.
- **SEO optimization** of websites using modules such as Metatag, Simple XML Sitemap, Google Tag, AdvAgg CSS/JS, Responsive Image, Image Optimize, etc. Performance improvements, resource compression, and configuration of metadata and sitemaps.

Hobbies

- Creating "pet project" type projects — web applications using React, Redux, Next.js, Nest.js, and Prisma.

- Coin and medal collecting

- **Administering and maintaining live websites:** updating the Drupal core (e.g., from version 9 to 10), modules (using Composer or via the admin panel), and troubleshooting issues during updates.
- **Fixing errors** shown in site status reports and actively analyzing performance and module compatibility issues.

Front End Developer   **Apr 2016 - Feb 2024**
TERMA Sp. z o.o., Gdańsk

- Creation and development of websites based on **CMS Drupal 8/9/10** – both independently (responsible for front-end and back-end) and as part of a team.
- Creation and maintenance of websites based on **Vue.js 2 (HTML, SCSS, Bootstrap 4/5, JavaScript, Vue 2, Vue I18n).**
- **Customization and development of Drupal themes** (e.g., Bootstrap Barrio, Bootstrap 5) to meet specific requirements, including using additional modules or creating custom ones.
- **Front-end implementation** using **HTML, SCSS, JavaScript, Bootstrap 4/5, Twig, following Responsive Web Design (RWD)** principles.
- Preparation of contact forms using Drupal modules and adding anti-spam protections (Webform, Antibot, HoneyPot, etc.).
- Creation and development of WordPress-based websites.
- Working with Drupal 7: adding and modifying subpages, creating forms (**HTML, SCSS, Bootstrap 4, JavaScript, PHP**).

Website Administrator   **May 2011 - Mar 2016**
Travel company "A-YA Tour", Kiev, Ukraine

- Website management based on **CMS WordPress**.
- Working with **HTML** and **CSS**, including modifying and adding new code.
- Configuration and updating of **WordPress plugins**.
- Adding and updating content on the website.
- Preparing graphic materials for use on the website and social media (**GIMP, Paint**).
- Handling and processing incoming orders from the website.

Education

Master's degree   **Sep 2000 - Jul 2005**
Taras Shevchenko National University of Kyiv, Kyiv
Field of study: History, Specialization: History of Ukraine

                                                        Sep 1990 - Jun 2000

School 71, Kiev

Courses

Front-End Developer   **Apr 2017**
Programming courses: 240 hours of workshop training in a part-time format.

Polish language course   **Jun 2015**
